

ACCOMMODATION POSSIBILITIES

DURING THE SUMMER COURSES 2015

When applying for a course from the VIA Summer School programme, you have the following possibilities for accommodation:

A) Find accommodation on your own

Due to a limited number of dormitories and rooms, VIA Summer School recommends that you arrange accommodation for your stay on your own. In this way, you can find a place that fits exactly to your specific needs and preferences. Additionally, it might be a cheaper solution for you than our standard options.

▪ Facebook group

You can join a special Facebook group about accommodation for students in Horsens. Here you can find someone who may offer you a temporary room during summer, or help you to find it. Be aware to arrange all formalities with the person renting your room in advance.

This is a direct link to the group:

• Friends or other students from home institution

Check if any students from your home institution are currently studying at VIA University College, Campus Horsens. Perhaps they can tell you about possibilities of staying during the summer time, or they might even share their room with you.

Ask the international exchange office at your home institution to get contact information on fellow students already studying at VIA University College, Campus Horsens.

• International accommodation portals

Below, you will find links to two international accommodation portals, where people share their own houses/apartments in order to meet others from different countries.

This is a direct link to those websites. The first link is with accommodation free of charge.
